

System Update Notification

August 12, 2017

There has been a change to POS ordering!

At Skyware we are always trying to make the system better! It was brought to our Install department's attention that the Point of Sale system needed to have the functionality to set a specific preparation or modifier to 'NO.' Together with our programming department, we have created the following:

When selecting a preparation or modifier a single click will select as normal, changing the color to **blue**. A second click will turn it to **red**, as shown below for the American Cheese and the Peppers. These will appear with 'NO' in front of them on the check as well as the Kitchen Check.

Quick Sale (06/28/2012)

Table **-NONE-** Covers 1 Server **ADMIN** Period **Breakfast** Outlet **Ocean View Restaurant**

Items	Payments	Gratuity / Misc \$	Postings	Edit

									Sub-Total: 9.45
									TOTAL DUE: 9.45
									<small>Click to Select - Transfer to another check / Delete / Fire.</small>
									<small><input type="checkbox"/> Show Detail / Credit Card Authorization Only / Fired</small>
								Kitchen Check	

We understand that this is a change from how it has been done in the past, but feel it is a necessary change to make the system better.

Please contact Support@SkywareSystems.com if you have questions.

Thank you for your continued support of Skyware Systems!
